“As members of a patrol along the Administrative Boundary Line of Kosovo, in carrying out the delicate task of contributing to maintain a safe and secure environment in the MNB C AOR, were suddenly engaged in an exchange of fire by illegal wood cutters.

Despite the use of firearms by the outlaws and the concern for the wounds of one the patrol members, with courage, determination and professionalism, in compliance with the ROEs, the members of the patrol were able to capture seven outlaws of the hostile party and hand them over to UNMIK and local Police.

As a clear example of high professionalism, dedication, determination and courage, they have shown that KFOR is deeply committed to ensure that Kosovars may live in peace and according to the laws.

To these brave soldiers goes my deepest gratitude and commendation.
